**IV. Items for Discussion:**

**Review the results from the GECC sessions over PS and PG:**

a. After discussions between faculty from welding, truck driving, math, and science the consensus was to not change the problem solving rubric as it is working for its intended purpose.

b. The discussions in the PG sessions concluded that the rubric needs to be changed. April presented the results of their session which included a proposal of a new rubric. After discussion about the new rubric and about the process of assessing personal growth and responsibility it was suggested that this core competency could be rewritten specifically as a co-curricular core competency. The result would be that we would have five GECC and one co-curricular core competency (CCCC). Sheryl will share this proposal to each of the divisions and

report back at a later date. Finally, in regard to our GECC rubrics, a proposal was made to change the name of “Global and Cultural Awareness” to “Global and Cultural Engagement” and to change “Research and Information Literacy” to “Information Literacy”. The consensus was favorable for changing the names of those two rubrics.

**Discuss storing and organizing CCAF, rubrics, artifacts, and CQIs outside of the WIDS system:** Sheryl discussed some issues and proposals pertaining to the storage of the GECC rubrics data outside of the WIDS system. She will request a meeting with Jonathan Van Meter to share her concerns and get guidance as to the best approach. She will report back at a later date.

**Review the latest GECC data and discuss how to interpret the results**  
This was tabled until a future meeting due to time
