## Policy Statement

Since the Board delegates administrative and operational authority to the President in the *B2001 Delegation to the President* policy, the Board has an interest in ensuring that Presidential services and responsibilities continue in the event the President is unable to perform the duties outlined in the *B2002 President Accountability* policy. In such an event, the Board will need to determine if an interim or permanent President replacement is necessary by conducting a special meeting or at the next regularly scheduled meeting.

To help the Board plan for this contingency and expedite the decision-making process, the President shall not fail to ensure that the College's CAO, CSSO, and/or CFO are familiar with the current strategic and operational initiatives being conducted and can substantially perform the duties outlined in the *B2002 President Accountability* policy.
